

# Rick Kosick

Filmmaker/Photographer

I've spent 20+ years capturing some of the funniest, wildest, and downright questionable moments in film, television, and video that were, and still are, some of the galvanizing moments that have defined modern-day pop-culture. I love nothing more than being behind a lens, and from solid gold wheelchairs to shark attacks, I can easily say that I have the best job in the world using images to tell stories.
